Yes I saw that. It did not seem to be directed at anyone in particular, but may nonetheless merit a reply... I'm all about maintaining my reputation as a toughie! ☺

Hi Kate, if you scroll down both the email Sury sent to Nagu and I (very last one) and the email he sent to Andrew that got forwarded to us later are all there, so I won't forward again.

I'll respond to him about his "thread" comment to clarify, unless someone else gets to it first, although I'm not sure how much help it will be.

Andrew,

I got little late into the meeting and was not there at the end of the meeting when you had some further discussion. So if I am missing some points, or something not correct, please feel free to add/revise as necessary.

Here are some main points:

Please feel free if I missed anything.

Hi Andrew,

Good morning. Thanks for the mail. Regarding the questions you asked...

OK, I will get back to my ADME revision now. Also, I am working on my review of the NPC MOA (from Lynn Adams) and will send my comments to Jason.

Thank you for revising this so quickly, Sury. I like the summary layout. I had just a few, quick thoughts from a rapid skim of the attachments:

Hi Nagu and Catherine,

Good morning. Thank you very much for providing the comments on the FA-GeneTox section. Since there were several comments it took a while in revising the draft. Also, being a huge file I faced issues while saving the draft and sometimes lost some text which also added to the delay. It would be easier to work with one section separately. Anyway, here is the revised version with track changes.
